**Purpose of Contact:** Removal of Sewer Manholes

### Discussion

Two sanitary sewer manholes will be removed during demolition and regrading of the B116/T117A area. These manholes are part of the sanitary sewer system (PAC 000-500), however, these are not associated with spills or releases to the system. These manholes are on the end of the sewer lines that begins under T117A and runs northeast to the Sage Avenue.

The manholes will be removed as follows

- The lines will be plugged and grouted at the manhole,
- Top 3 to 4 feet of the structure will be removed, and
- Remaining structure will be backfilled.

These sewer lines were previously flushed prior to building demolition.
